

Do not let the Bell "Wolves" own the chicken coop you already allow them to dominate. Competition requires competitors to be alive. If the FCC lifts the dominant classification from the Local Exchange Carriers (Bells), it will limit competition to a duopoly consisting of a bell and a cable company. Competition in the American Telecom marketplace will not be incentivized, it will be torpedoed. ISPs and CLECs will die, consumers will be deprived of choice and the FCC will be wholly to blame for the travesty. DO NOT DO IT. Chairman Powell: Please do not sell out to BIG BUSINESS, at the expense of competition and the small businesses of our country.

The service of my choice, a CLEC named Speakeasy, provides excellent, no-hassle service. In contrast my colleagues seem to have continuing problems with their Internet services from large companies whether they are wireline or cable. Please allow the CLECs to maintain service over the Baby Bell networks!
